

I have listened to K-Love radio exclusively for several years now. I feel so strongly about the importance of this broadcast that I send a monthly check to them to help with costs. I have seen a change in the youth of our community who listen to K-Love. My own children and grandchildren are better Christians because of the songs and messages they hear on this station. More Christians mean less crime and better quality of community life. K-Love impacts our community in a positive way that no other radio station can match. Linda Light
